GASTON SUPERIOR COURT .- The Spring Term of the Superior Court for Gaston county was held last week-

Judge Osborne presiding. Hardaway Bone, convicted of the murder of James day. Corpelius, in Catawba county last summer, was sentenupon him, he replied by asking the Judge to extend the ferred the fugitive to that vessel. time as long as possible. It is supposed that this request was made with a view to executing his threat or with the hope of escaping. It is said that satisfactory evidence has been obtained showing that he is a fugitive from justice, having committed one or two murders and other crimes in Tennessee or Georgia. His real name is Isham, not B ne.

On Wednesday, Wm. Murrill was put upon trial for killing a tree negro called Macon Rankin. A. W. Burton and J. F. Hoke, Esqs., appeared for the State, and David Schenck and L. E. Thompson, Esqs., for the prisoper. He was convicted of manslaughter, and sentenced to be branded and imprisoned one year in Mecklenburg Jail.

Wherever he has been on the Circuit he has maintained Mr. Lander, the Solicitor, being absent, the duties were ably discharged by Messrs. Burton and Hoke. Charlotte Dewocrat, 8th inst.

An Abelitionist Whipped at Kingsville yesterday by a Baltimorean.

A straggling fellow, (passing himself off as a white man, but believed to be a free negro.) was soundly whip- tion, and respectfully solicit your votes. ped at Kingsville, yesterday, between two and three o'clock, in the afternoon, by Mr. B. Franklin Cole, from the firm of Straus, Hartman, Hofflin & Co., of Baltimore. Mr. Cole overheard Hare say that Maryland was an Abolition State, in a boastful way. He immediately gave it the lie, and made towards him. Some words ensued, during which the true hearted Baltimorean manfully stood his ground, and the straggler gave abundance evidence of his being an Abolitionist of the most low and dirty character. Soon it was suspicioned that he was but an impudent free negro, from some Northern locality. This he acknowledged, upon being pushed up a little. Mr. Cole then took him aside, into an apartment of the Kingsville Hotel, made him peel off, and gave him the limit of the law, " well-filled, pressed down and shaken together," upon his bare back. Sumter Watchman, 7th inst.

THE CARE OF CHILDREN WITH REFERENCE TO PREVENTING THE PATALITY OF SCARLET FEVER. -That the scarlet fever is one of the most fatal diseases to children which prevails in our land, the anguish of too many parents' hearts can testify. Anything, then, which can guard the little ones from its fatal effects will be gladly embraced and cheerfully re-

The most fatal point of attack of this disease is, first, the throat, and second, the air passages and lungs. When general disease of any kind is received into the system, it locates upon the weakest parts. Scarlet fever being an inflammatory disease of the skin, and the lining membrane of the throat, air passages and lungs being a continuation or part of the skip, it necessarily attacks these. If any part of this membrane is too weak to withstand the attack, and throw it off by what physicians call desquamation, the membrane nicerates in patches and the child dies. The membrane lining the threat is almost always the first point of attack, from the fact that this is usually weakest in children, and less able to withstand the disease. Anything, then, which is calculated to strengthen and toughen this mem-brane, or the membrane lining the air passages and lungs, is calculated to enable the child to withstand the attack of

To do this we must commence when the child is first born. The drink-the very first drink it receives into its mouth, unless it is its mother's milk, should be cold water. Its food should be entirely drawn from its mother's breast, if possimilk, one-third water, sweetened with pure white sugar .it will take. The sprue, red gum and children's sore mouth causes debility of the membranes of the throat and air passages, and renders them more liable to die from scarlet fever. Cold water freely and frequently given is one of the best preventives of and remedies for those infantile diseases. The next best means of strengthen ng and toughening those membranes is by frequent washings of the neck, throat and

breast with cold water, occasionally using soap, and wiping and rubbing the parts dry. This should be done morning and evening-and if two or three times a day the better .-These washings should never be done with warm water after the child is a lew days old. It should always be cold water and the more triction used in drying the skin after the wash-

The third best means of accomplishing this object is by the dress. The chest should be lightly clotted with flannel, and the neck, top of the chest and head be entirely exposed to the air in warm weather, and when in the house in winter. The arms and legs should never go uncovered. This causes the blood to revede from them, gather in too large quantities around the throat and chest, producing unnatural enlargement of the glands, and other tissues there, and caus-

ing a correspond ng debility and liability to disease. The next best means of strengthening these membranes in children is free ex; osure to the air, and by inducing them to exercise their lungs and throat by gigging, laughing, crowing, crying, and every other means possible. Laugh ing and crying are very beneficial to children. A child that spends one day without the one or the other cannot be healthy. At any tate, their indulgence in these practices

strengthens and toughers the organs most necessary to be strengthened, to guard them against the fatal influence of The way to give children exercise and air, whether they are five days or five years old, is to take them into the open air-not to let the air blow on them, but take them into it, and have the pure air of heaven all around them. When thus exercised or expos. d, their feet, legs and arms should be warmly clad, but their head, face, neck and shoulders exposed freely to the air. You cannot, or should not, preent the cold air from being breathed into their lungs. This is absolutely necessary to strengthen them. If you, at the same time, let the air of the same temperature have free ac-

cess to the skin of the chest, neck and throat, you prevent heir taking cold. The simple means which we have now enumerated can be applied and used by every mother and nurse. If they are ised and applied as directed above by all the mothers and burses in our land, they will prevent the scarlet fever from becoming fatal in thousands of cases where it otherwise would. These means are as applicable to one part of the country as to another, and to rural districts as well as to cities. This fatal disease prevails in all these localities, without reference to class or circumstance of life, and these

A LADY RESCUED FROM THE SAVAGES.—A letter from Tuscon, Arizona Territory, gives the following information respecting the rescue of Mrs. Page, recently carried off by the Indians:

dible trials. Mr. Page immediately set out, accompan- found to be all that you recommended it. ied by a physician, and everything possible to be done It restored my hair to its original beauty, and keeps it soft seizure by the Indians, finding that her friends were on the trail, refused to go on, and her savage masters lanced her in several places, and left her for dead. After some time she revived to find herself weak from loss of blood, with wounds still open, foot sore from her previous trials, with wounds still open, foot sore from her previous trials, without food, and miles from any habitation. What a position for a young woman of eighteen summers-a bride of two months-whose life hitherto had been all sunshine? Through all these trials Mrs. Page struggled for two weeks and dragged her emaciated form by degrees toward the home from which she had so lately been rudely torn by ruthless savages. No one suspected her presence in the mountain, and those who were all Druggist. looking for intelligence from her thought she was miles away amid the haunts of the red men. How she was enabled to suffer so much and reach home at length, is incomprehensible.

HORRIBLE AND UNNATURAL CRIME.—A blacksmith named Jonathan Hobbs is under arrest, charged with having, on afternoon of Monday last, fastened all the a safe and certain remedy—Read the following testimony.

Onter doors of his dwelling at Orange N. J. with the Binghamton, January 7th, 1854. outer doors of his dwelling at Orange, N. J., with the that his wife and three children perished in the flames. for several months, been very much swollen and inflamed, Of the remaining three children two were badly burnt after a few weeks use of the Balsam, were perfectly cured and one was saved uninjured. A girl eighteen years and well as ever of age, daughter of a neighbor, and who chanced to be In the house at the time the atrocious deed was perpetrated, was so badly burned that she died in about two hours. Hobbs was arrested the same night at the Village of Freemantown. He is represented as a drunken, worthless fellow, always in difficulties with his wife.

A CONVENTIONAL EPISODE.—The following correspondence per telegraph has been handed us by the Hon. Francis E. Rives, of this city, with a request to insert Il in our columns :- Petersburg Express.

PETERSBURG, May 3, 1860. have telegraphed to your friends in Charleston declining Assembly. the Presidential nomination, and recommending Breckuridge. If so, you have done great injustice to your friends. Please let me know if there is any truth in the An experienced nurse and female physician, has a Soothing report. (Signed) F. E. RIVES.

REVIEW OF THE WILMINGTON MARKET, FOR THE WEEK ENDING MAY 9TH, 1860.

TURPENTINE -The market ruled steady at last week's quotations up to Friday, when there was a better demand at 22 cents. from buyers, in consequence of which there was an advance of 15 cents on yellow dip, and 10 cents for hard. Since then there has been a fair enquiry from both shippers and distillers, and parcels have sold on arrival at \$3 for new virtwenty per cent. more in proportion than the small, retails | gin, \$2 75 for yellow dip, and \$1 65 for hard, per 280 lbs.—
for two dollars per bottle; the large holds a quart, 40 per A slight rise in the river has enabled a few lots to reach A slight rise in the river has enabled a few lots to reach market, and therefore the rece:pts for the week have been rather better than those of the previous one, and the sales foot up 2.853 bbls., as follows:

Bbls. New Virgin. Yel. Dip. Hard. Wednesday .. 113......\$3 00.......\$2 60....... 1 55 Thursday,.... 204...... 3 00.......... 2 60...... 1 55 172...... 3 00....... 2 60...... 1 55 Thesday, 315 3 60 2 75 1 65
Wednesday 215 3 00 2 75 1 65
Spirits Ture Ntine—Since our review of Wednesday last,

the market for this article has ruled active, and under the sale;—at the close there is very little if any remaining in first hands. We quote sales of 2,194 bbls., as follows: Wednesday,. 109 bbls. at 41½ cents per gallon,

Do...... 83 " " 43" " Thursday... 21 " " 431 " " " Do..... 600 " " 44 " " 40 " " 42 Do..... Saturday,.... 500 " " 425 Do...... 100 " " 43 Do .... Tuesday.... 175 " " 43 "

Do...... 226 " " 44 " " " " " " " " Rosin—Since our last review we have nothing new to report in this article as regards prices. The arrivals of Pale have been rather better, still the market has been neglected, and only a few transactions have taken place. We quote sales | 39 a 40 cents. of only about 725 bbls. at \$2 374 for inferior, \$3 50 for fair, and \$3 75 a \$4 for extra quality, per bbl. and per 280 lbs.— For No. 1 the market has ruled quiet, and prices continue quite low. The sales comprise only 1000 bbis. (on Thurday) inferior at \$1 25 per 310 lbs.; and Tuesday 1202 do. at \$1 375 to \$2 25 per bbl., as in quality. For No. 2 the market has ruled inactive, and no sales have taken place that we can hear of; nominal at \$1 20 to \$1 30 per bbl. The market for the Common article rules about the same as last reported, though one or two lots have changed hands at a shade decline on former quotation. There is a moderate demand from buyers at \$1 174 per 310 lbs.; sellers, however, are not disposed to accept this price, and are generally holding at \$1 20. But little has arrived during the week, and the stock in receivers hands is very small. We quote sales as follows: Thursday,...1,000 bbls. at \$1 20 per 310 lbs., and \$1 15 for

Do.....1,000 " " 1 171 " " [tale bbls. Do.... 2,500 " " 1 20 " " " Monday.... 900 " " 1 15 " " " TAR-After closing our review on Wednesday last one small lot (2- bbls ) went at \$2 05; on Thursday, however, it declined 5 cents, and the market since has ruled steady. The arrivals have been meagre, and the sales for the week foot up only 581 bbls. at \$2 per bbl. BEEF CATTLE, &c .- No beeves of consequence have been brought in for several weeks past, and the market is almost! if not entirely bare. There is a brisk enquiry from butch-

ers, and a few droves would find ready sale at high figures—say 8 to 9 cents for ordinary, and 10 to 11 cents for prime quality. For Sheer there is also a fair demand, and a few lots would bring high prices; none on market.

Barrels—We have nothing new to report in the market for empty Spirits Turpentine barrels. The demand continues exceedingly light, and there is a fair supply remaining in first hands. No sales to report in second hand ones, and we quote nominally at \$1 25 to \$1 50 for lots as they run. we quote nominally at \$1 25 to \$1 50 for lots as they run, and \$1 80 to \$1 85 for selected, as in quantity and quality.—
There is some demand for New York make, and new seil at

\$2 10 to \$2 15 each. COTTON-Since our last review we have nothing new to report in the way of transactions. The stock on market is very small, and nearly or quite all of which is of interior quality, which is extremely difficult of sale at at thing like a fair quotation. For the finer grades there is a moderate enquiry, but in the absence of stock nothing of moment has been doing. The recent advices from Europe report an ad-

vance in prices, and the market here exhibits more firmness and fine quality would sell readily. The sales comprise only two small lots in the early part of the week at 7 cents for stained, and 9 to 11½ cents for low to good middling.

Coffee—The market is only moderately supplied, and rules firm at former prices. The sales for the week have been confined to small lots from store at prices quoted in

our table, as in quantity. Conn Meal.—The market is only moderately supplied, and we notice a fair enquiry for retailing purposes. We quote sales in the small way at 95 cents to \$1 per bushel. DRIED FRUIT-Is in moderate request, and only a few small lots on market. No sales have taken place that we are aware of, and former quotations are merely nominal. are aware of, and former quotations are merely nominal.

EGGS—Are brought to market slowly, and meet with quick sale at 18 a 20 cents per dozen

FISH—The market is very well supplied with Eastern Herring, and merely a retail demand with Eastern Herring, and merely a retail demand with Eastern Herring.

and are in very light stock. We notice some enquiry and quote small sales at 45 to 55 cents per lb.

FLOUR—The market for State brands has exhibited con-25 cents. There have been, however, but few transactions made, owing mainly to the small stock held here, and buyers do not seem disposed to operate to any extent at pres- & Howell. ent prices. We quote small sales of several parcels from Schr. H. R. store and wharf at \$7 25 for superfine and \$7 50 per bbl. for riss & Howell. family-closing firm, with rather an upward tendency in

GRAIN.-For CORN we have to report rather a better market since our last, and prices have advanced a shade; nearly all received, however, was taken for an interior market. The arrivals for the week comprise only 12,240 bushels, of which 4,965 came to dealers, and has gone into store, and the balance changed hands as follows: 2,200 bushels (heated) at 724 cents, 3,325 do. at 81 cents, and 1750 do. at 833 cents per bushel, according to quality.—
There is a fair stock of former arrivals in store, and dealers do not appear disposed to operate further at present prices. We quote the market as closing quiet at 81 to 83 cents.—
OATS.—No late receipts, but we notice a fair supply remaining in dealers hands, and only a retail demand exists at present. We refer to our table for prices .- Pras .-The receipts for some weeks past have been quite light, being confined to small lots, and in consequence the stock on market has become materially reduced. There is a fair enquiry for Cow, and parcels would sell readily at 85 to 90 cents per bushel, as in quality.——RICE.—The market is moderately supplied, and we notice only a retail business doing. One or two small lots of clean have been received since our last, and gone into store;—selling at 4 cents per lb. No transactions reported in the rough article; last sale was at \$1 per bushel.——WHEAT—On Monday 110

bushels red sold at \$1 15 per bushel. GUANO - The market is moderately supplied with most descriptions, and rules steady at former rates. We quote sales from store at the following prices, in lots of one ton and upwards: Peruvian \$60; Reese's Manipulated \$50; American \$40; Sombrero \$35; Superphosphate of Lime \$50; and Land Plaster \$10 per ton. HAY-In the market for this article we have no change of

importance to report. The arrivals of Eastern have been moderate for some weeks, and there is a fair supply in dealers' hands, and only prime quality finds ready sale. A lot of 175 bales was received on Saturday last, and sold at \$1 174 per 100 lbs., 90 days. No arrivals of Northern for a lew weeks, and the stock on market has become somewhat reduced; it is, however, fully adequate for present wants. LIME—The market is very well supplied, and we notice merely a retail demand. We quote sales in the small way from store at \$1 to \$1 10 for common lump, and \$1 35 to \$1 40 per cask for white, as in quantity. LUMBER-River-One raft (40,000 feet) was received on Friday last and sold at \$13 per M. for flooring boards.

Molasses-There have been no arrivals of Cuba for some weeks past, and in consequence the supply in first hands has become considerably reduced; it is, however, Brig Monserate, Crowther, from Cardenas, to T. C. & B. 111 fully adequate for present wants, as there is merely a retail G. Worth. The M. was bound for New York, with a cargo demand. We quote small sales from wharf in hhds. at 26 to of Molasses, but on the 28th ult. experienced a heavy gale 28 cents per gallon. PEA NUTS-Are in demand, and very few if any on mar-

ket. Sales on Thursday of 200 bushels at \$1.50, and Friday 500 do. at \$1 60 per bushel. PROVISIONS-In the market for N. C. cured Bacon we have no change of consequence to report since our review of Wednesday last. There is a fair stock in dealer's hands, and at present we notice only a limited enquiry. We quote sales of two or three lots (about 5,000 lbs.) at 111 cents for hog round, and 13 cents per lb. for hams—closing quiet but steady at these figures. With Western cured the market is moderately supplied, and rules firm at former rates. We quote sales from store at 9 a 91 cents for shoulders, and 11 a 11½ cents per lb. for sides.—LARD—No change to report in either N. C. or Western make, there being merely a retail business doing, and the stock in dealers hands is sufficient for present wants. We quote the former at 12 a 12½ cents, and the latter at 11½ a 12 cents per lb., in bbls. and kegs.——PORK—The market is moderately supplied with Northern, and rules firm at former prices. See table for store quotations, at which sales have taken place during the week.

SALT-None of either description received since our last, consequently we have no sales to report. The market is moderately supplied, and there is merely a retail enquiry.-See table for prices. SHINGLES-Rule decidedly dull, and are exceedingly dificult of sale. Only a few parcels of Common have been brought to market and sold at \$2 per M. TIMBER-Rules about the same as last reported ;-millers have a fair stock on hand, still there is a moderate demand,

and prime quality sells readily at fair prices. See table for FREIGHTS-We have no change to report on former rates, though the market for coastwise rules exceedingly dull. Produce arrives sparingly, and there is not much offering for

MOBILE, May 7 .- Sales to-day of 4000 bales cotton. The steamer's news imparted greater firmness to the market, Worth; 1,075 bbls. rosin. which closed active; Middlings 104c.

NEW ORLEANS, May 7 .- Sales to-day of 7500 bales Cotton. The steamer's news caused greater firmness in the market; Middlings 104 a 11c. Sugar is firm. Pork is firm at \$18 a 18 25. Freights and Exchange remain as last re-SALISBURY, May 8 .- Bacon 11 a 111; Beeswax 20 a 25; Coffee, Rio, 12 a 16; Java 17 a 22 ; Cotton 9 a 10; Cotton Yarn 0 90 a \$1 00; Corn 70 a 75; do. DR. A. & J. SMALL, Operative and Mechanical Dentists. THANKFUL for the uncommonly liberal patronage already received from the people of this county, Dr. A. SMALL has associated with himself his brother, J. SMALL, whose merits as a Dentist, to be appreciated only require to be known; and they are determined to perform every operation as well as it is in their power to do it, and to deserve the confidence of all.

Those so situated that they cannot come to town, can be accommodated at their homes by dropping us a note.
